## **Report on AIDS Awareness Programme**

### **NSS Unit, Kalinagar Mahavidyalaya**

In pursuit of our ongoing commitment to health awareness and community education, the NSS unit of Kalinagar Mahavidyalaya organized an AIDS Awareness Programme on 13th November 2018 at our college premises.

The programme commenced with an informative lecture on AIDS, covering causes, transmission, prevention, and the importance of awareness. Students actively participated in interactive sessions, addressing queries and clarifying misconceptions related to HIV/AIDS. A medical team from Ghoshpur Block Primary Health Centre actively contributed to the programme, providing expert insights, answering health-related queries, and offering guidance on preventive measures. Pamphlets and informational materials were distributed to students, containing essential information about AIDS, its prevention, and available resources for further assistance. The programme witnessed enthusiastic participation from students across various disciplines. The AIDS Awareness Programme was successful in achieving its objectives of disseminating crucial information and promoting awareness among students. The active involvement of the medical team enhanced the credibility and effectiveness of the initiative.
