## Report on Thalassemia Screening, Blood Grouping, and Basic Eye Screening Programme

Organised by: Health Cell, Kalinagar Mahavidyalaya in collaboration with Basirhat District Hospital (Thalassemia Unit) and District Tobacco Control Cell (DTCC)

Coordinator: Mr. Subrata Biswas  
Time: 12 Noon onwards  
Number of Participants: 71

Date: 17/03/2023  
Venue: Room No 4

### Introduction:

The primary objective of the programme was to create awareness about thalassemia, promote blood grouping for health assessment, and provide basic eye screening to the participants. This event was open to students, teachers, and non-teaching staff, with a total of 71 participants.

### Programme Highlights:

1. The programme commenced at 9:00 AM and continued until 4:00 PM.
2. Mr. Subrata Biswas, the coordinator, delivered the welcome address and outlined the day's activities.
3. A team of healthcare professionals from Basirhat District Hospital (Thalassemia Unit) and the District Tobacco Control Cell conducted the screenings.
4. Detailed counseling sessions were conducted for participants who tested positive for thalassemia carriers or other health issues.
5. Refreshments were provided for participants during the event.

### Activities:

The following activities were carried out:

- i. Thalassemia Screening: Blood samples were collected from all participants for thalassemia screening to determine if they were carriers of the thalassemia gene.
- ii. Blood Grouping: Blood grouping tests were conducted to determine participants' blood types.
- iii. Basic Eye Screening: Participants received basic eye examinations to check for common eye issues.

### Outcomes:

1. All 71 participants underwent thalassemia screening and blood grouping, resulting in increased awareness of their health status.
2. Basic eye screening helped identify common eye problems, ensuring early intervention.
3. Participants who tested positive for thalassemia carriers or other health issues received counseling and guidance on further medical evaluation.
4. The programme fostered a sense of health consciousness and well-being among the participants.
5. The event helped strengthen the collaboration between Kalinagar Mahavidyalaya, Basirhat District Hospital (Thalassemia Unit), and the District Tobacco Control Cell.

### Conclusion:

The Thalassemia Screening, Blood Grouping, and Basic Eye Screening Programme were successful in promoting health awareness and providing essential screening services to our college community. We are grateful for the collaboration with Basirhat District Hospital (Thalassemia Unit) and the District Tobacco Control Cell in making this event a success. We look forward to future initiatives aimed at promoting the health and well-being of our college community.
