Subject: Proposal for 1st Semester UG Online Admission System 2023-24 (integrated with Back Office
                Student Management, AIMES CLOUD™) implementation & Customization.

Respected Madam,

We at Infotech Lab take this opportunity to introduce ourselves, as Kolkata based software and web related development company providing our solutions and services to the education sector for over a decade.

This offer is regards to your enquiry and our demonstration for **implementation of Online Admission System 2023-24 (CBCS Curriculum)** for your UG courses which can further be integrated with **AIMES CLOUD™** i.e. web based student management software, a complete ERP solution.

It is an honour to inform you that currently we are working for various institutions under **State University, Vidyasagar University, Calcutta University, Burdwan University,**

To gain your trust and confidence we would love to inform you about few of them.

This offer is in regards to implementation, customization and development of the online admission procedure/system for 1st year under graduate courses 2022.

We are pleased to submit our techno commercial offer for your kind perusal. I am enclosing here under the job scope, man days, delivery period & commercial scope. A summary of the software is also attached.

A brief summary of the solution is also given for your understanding. I look forward for the opportunity to work for your institute.

ONLINE ADMISSION PROCESS FOR U.G. & P.G Courses

Job Scope:

PRE ADMISSION (PRE PHASE)

- Defining admission criteria as per university / college
- Defining admission fees structure
- Phase wise Student application receiving with application number generation
- SMS & Email notification of application number
- Uploading of necessary document upload like photo/ signature / mark sheet / cast certificate / PH certificate.
- Multiple course selection against the application number
- Online payment integration bank/ gateway
- Applicant payment reconciliation for merit list consideration
- Publishing of reconciled applicant list

ADMISSION (MID PHASE)

- Provisional merit list generation
- Category wise final merit list.
- EMAIL / SMS / Web site publishing of merit list for counseling / admission based on sit capacity.
- Direct admission
- Admission Challan generation
- Admission Payment against admission challan
- Admission payment reconciliation
- Document verification of applicant

POST ADMISSION (POST PHASE)

- **Student ID generation**
- **Roll No generation as per college definition**
- **Student Provisional ID Card, Provisional Library Card**
- **Student Attendance register**
- **Process shall be effective till West Bengal State University Registration from our admission portal.**
- **Date-wise and head-wise collection data at the payment gateway**

Features

- Shift wise (Morning/Day/Evening) Hons. & General subject declaration
- Course & Course wise admission criteria i.e 10+2 subject grouping and marks setting for admission.
- Define combination wise amount require for admission.
- Set date allowed for form fill up .
- Admission Form Fill Up (Personal Profile & 10 +2 Academic Records) & Course Applied.
- Student Photo + Signature Upload+ 10+2 mark sheet upload + Category Certificate Upload
- Apply multiple courses
- System can guide a candidate in what different courses a candidate is meeting the admission criteria based on candidates 10+2 subjects and marks
- Printout of application and challan on successful submission
- Duplicate printout of application and challan on successful submission
- Challan creation (1 Copy Student + 1 Copy College +1 Copy Bank).
- SMS Intimation on payment received.
- Verify records against 10+2 mark sheet uploaded.
- Application Approve/Decline option / Modify any application
- Generate merit list for internal checking

Ia

Teacher-in-charge
KALINAGAR MAHAVIDYALAYA

- Course wise Complete Merit List Generation.
- Course wise Counseling list generation as First /Second/Third...n list for admission.
- Set course and category wise seat availability and filled up
- Data viewing facility for the government as demanded in the government order.
- Admission Payment Integration
- Subject change facility with auto adjustment of fees
- Admission through merit list / recall list/ direct admission
- **Real time seat availability dashboard**

Student Dashboard

- Modify profile
- Upload document
- New course application
- Admission fees payment
- subject change facility
- Provisional I Card print
- Provisional admission challan print
- provisional library card print

Reports

- Total Number of form submitted course wise, Sex wise, category wise and phase wise.
- Demand Supply ratio
- Form against which payment is collected course wise.
- Browse /Print any application.
- Merit Challan submitted course wise.
- Merit Challan Cancel/ Block list
- Any other customized reports needed and which we in the process develop

Online Admission Infrastructure

During online admission users are steadily increasing and load spike due to number of users and peak time traffic is unavoidable. Your focus must be on scaling your hosting infrastructure smoothly so that user experience is not compromised. The scaling must be in such a way that it maintains the same level of speed of access and security.

Road Map For High Availability Configurations

Teacher-in-charge
KALINAGAR MAHAVIDYALAYA

Infrastructure Consideration: Arrow Global Load Balancer is the user / internet facing Device. Application layer [codes], Files & Images are hosted in Multiple Apps Layer and Database is hosted in Database layer. There will be minimum two application servers, and one for database connected via 1 Gbps Private VLAN. The two application servers will behind Arrow Global Load Balancer. This is best suited for Expansion Phase. Higher stability, rapid scalability and high security will be there when compared to single node servers. Speed of access will be higher with very high stability. Most important of all, it allows running apps and database layers in multiple locations anywhere in the world Arrow Load Balancer must be able to route traffic to multiple locations and the servers design should be in such a way that it should offer a very stable and high speed access to the portal /product with very high security

APPS LAYER

Processor:	Intel Single Quad Core with higher clock speed
Memory:	32 GB RAM to handle spike in users, peak time traffic, web mail access
Primary Disk:	1 TB with or without RAID 1 SATA. In RAID 1, 2 X 1TB disks will be sequenced for better redundancy and avoid data loss due to disk failure
Backup Disk:	2 TB SATA. This will enable to store daily, weekly, monthly backup in incremental format
Control Panel:	cPanel / WHM [Linux] or Plesk [Windows] for quick setup of your domain / portal / application.
Network:	1 Gbps network speed with 160 Gbps backbone for seamless access speed in all locations

DB LAYER

Processor:	Intel Dual Quad Core with stable clock speed
Memory:	64 GB RAM to handle spike database access
Primary Disk:	RAID 1 SATA. In RAID 1, 2 X 1 TB disks will be sequenced for better redundancy and avoid data loss due to disk failure
Backup Disk:	2 TB SATA. This will enable to store daily, weekly, monthly backup in incremental format
Control Panel:	cPanel / WHM [Linux] or Plesk [Windows] for quick setup of your domain / portal / application.
Network:	1 Gbps network speed with 160 Gbps backbone for seamless access speed in all locations

Network & Security

Teacher-in-charge
KALINAGAR MAHAVIDYALAYA

DOS Shields

Robust DOS shields prevent our networks from Denial Of Service Attacks. All our servers are installed with ON ACCESS & ON DEMAND virus scanners. The systems are regularly updated with Software updates. All our servers are DELL, HP, IBM systems which allows us for a high degree of performance and in case of hardware interruptions; the necessary hardware is replaced in shortest possible time. This is due to our partnership or special arrangements with these software or hardware vendors.

Intrusion Detection System

Arrow Shield, industry's most comprehensive intrusion detection and prevention shield works in tandem with our DOS shields. Arrow Servers comes with pre-installed security components which make it more secure and stable. Every server has firewall and brute force system which counters any attempt that is made in your server.

PCI Scans

Arrow Servers are scanned regularly using PCI compliant control scans. It scans for more than 14000 vulnerabilities and provides a complete audit on our network environment. This is done regularly to meet high standards of PCI and to safe guard your web presence. The Risks are classified as Urgent, Critical, High, Medium and Low. Based on the severity the risks are mitigated immediately.

Backbone Connectivity

Arrow Servers are hosted in Fully Automated Virtual Data Centers with unmatched network speed and capacity, which eliminates bandwidth traffic, jams. Multiple bandwidth backbones such as NLayer, Verizon, Level 3, Sprint, British Telecom, Internap, and Comcast provide redundant network availability along with numerous private peering arrangements, more than 170 Gbps of transit and peering capacity is available at any point of time. Fully redundant network architecture with no single points of failure, More than 170 Gbps network bandwidth capacity and Maintenance/support contracts with all of our vendors, along with third party consultants, ensure constant uptime and availability.

ONLINE ADMISSION OPERATIONAL CHARGES

Sl. No.	DESCRIPTION	Cost
	UG ONLINE ADMISSION SYSTEM	
1.	Online Admission System 2023 (From application receiving till university registration, in purview of NEP-2020 /4 Year UG Programme)	30,000/-
2.	Admission Server & Infrastructure Rent (Considering a period of 4 Months, and approximation of 1000 applicants approximately)	20,000/-
3.	SMS (As per preapproved templates as per TRAI Guidelines), Email Alert & Helpline Support charges throughout the admission phases	10,000/-

The total online admission system software cost is ₹ 60,000/- and 18% GSTIN additional.

Job Scope:
- Software Implementation & Customization
- Testing & Quality Checking
- Training & hand holding charges
- Onsite support for the entire admission period in phases.
